

The GCEDC Relocates to Plymouth

The Grafton County Economic Development Council (GCEDC) is pleased to announce their change of location to 131 Main Street, Plymouth, New Hampshire, right above Meredith Village Savings Bank.

The new mailing address is:
GCEDC
PO Box 178
Plymouth, NH 03264

The new phone number is: (603) 536-2011
Those outside the immediate area can still use the same toll free line at
1-888-535-0002

The GCEDC decided to make this move in order to pursue partnership opportunities with Plymouth State University and other organizations in the area. Plymouth is also closer geographically to the northern parts of Grafton County; places that are struggling economically and who the GCEDC seeks to assist.

"This new location suits us well," stated GCEDC Executive Director Mark Scarano, "We are looking forward to developing even closer partnerships and collaborations with Plymouth State University."

Scarano also noted the generosity of Meredith Village Savings Bank in allowing them use of the Class A office space immediately above their Main Street branch. "Grafton County is fortunate in that it is served by local banks who take their civic and charitable roles seriously. Meredith Village Saving's subsidized rent allows us to provide the same top notch business development services as before and yet be closer geographically to the center of the county."

The GCEDC is one of nine regional development corporations statewide that seek to retain and attract businesses as well as support entrepreneurial development.
